ERO - Net

A platform for preparation, maintenance and revision of Electoral Rolls

ERO-Net facilitates efficient form processing, simplified dashboards, role based access, and maintenance of Electoral Rolls

One Team one Goal

ERO-Net is envisioned keeping in mind the mandate of ECI, that no eligible voter be left behind irrespective of his language or physical ability. The system strives to make an applicant's entry in e-roll unambiguous and error free without much of a hassle.

1 ERO-Net is national portal.

2 Web portal
- Form filling
- Monitoring dashboards
- Mobile apps
- Alerts & notifications

3
- Errors and multiple entries correction
- Entire ECI workflow, i.e. E-roll & EPIC generation, captured
- Approve, Reject or schedule hearing
- Tracking status of submitted applications
- Checklist for field verification

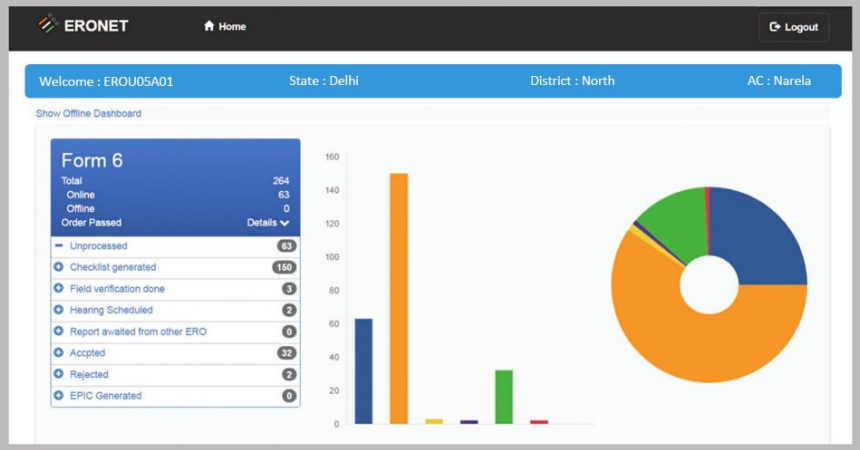
4

COMPARATIVE ANALYSIS

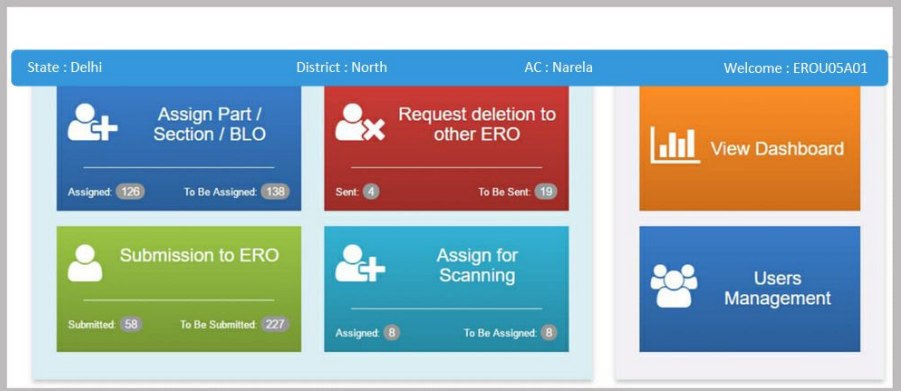
ERONet	Present ERMS System
Centralized System for electoral roll management having uniform functionality across all the States/UTs .	Decentralized ERMS System specific to a State/UT working independently.
National Level unified Electoral Roll database.	State Level unified Electoral Roll database being maintained by States/UTs.
Monitoring of electoral roll related activities at National Level by ECI.	Monitoring of electoral roll activities limited upto States/UTs only.
Electronic electoral migration process across Assembly constituencies in the Country.	Manual process for electoral migration across Assembly Constituencies in the Country.
Easy identification & removal of duplicate electors across the country from the centralised electoral roll.	Identification of duplicate electors at national level was a complex process and required consolidation of electoral roll of all the States/UTs.
EROs interaction at the National Level.	EROs interaction at the State Level.
Easy EPIC Portability.	EPIC Portability complex in the existing system

Simplified Dashboards

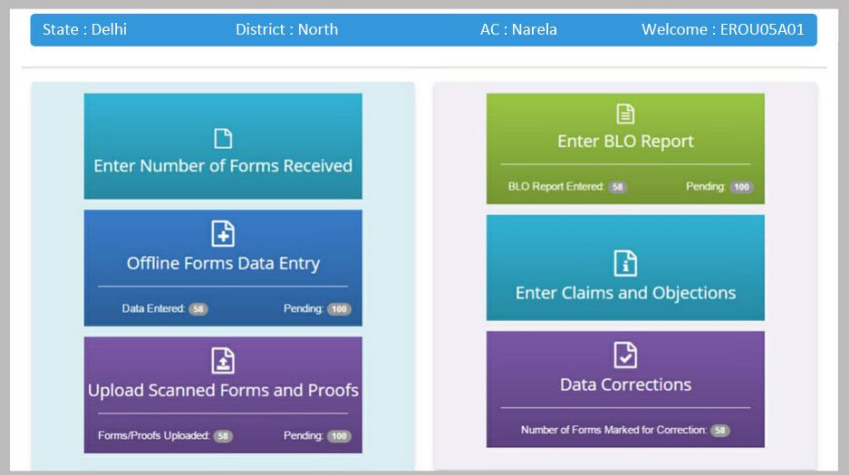
ERO Dashboard



Status of forms

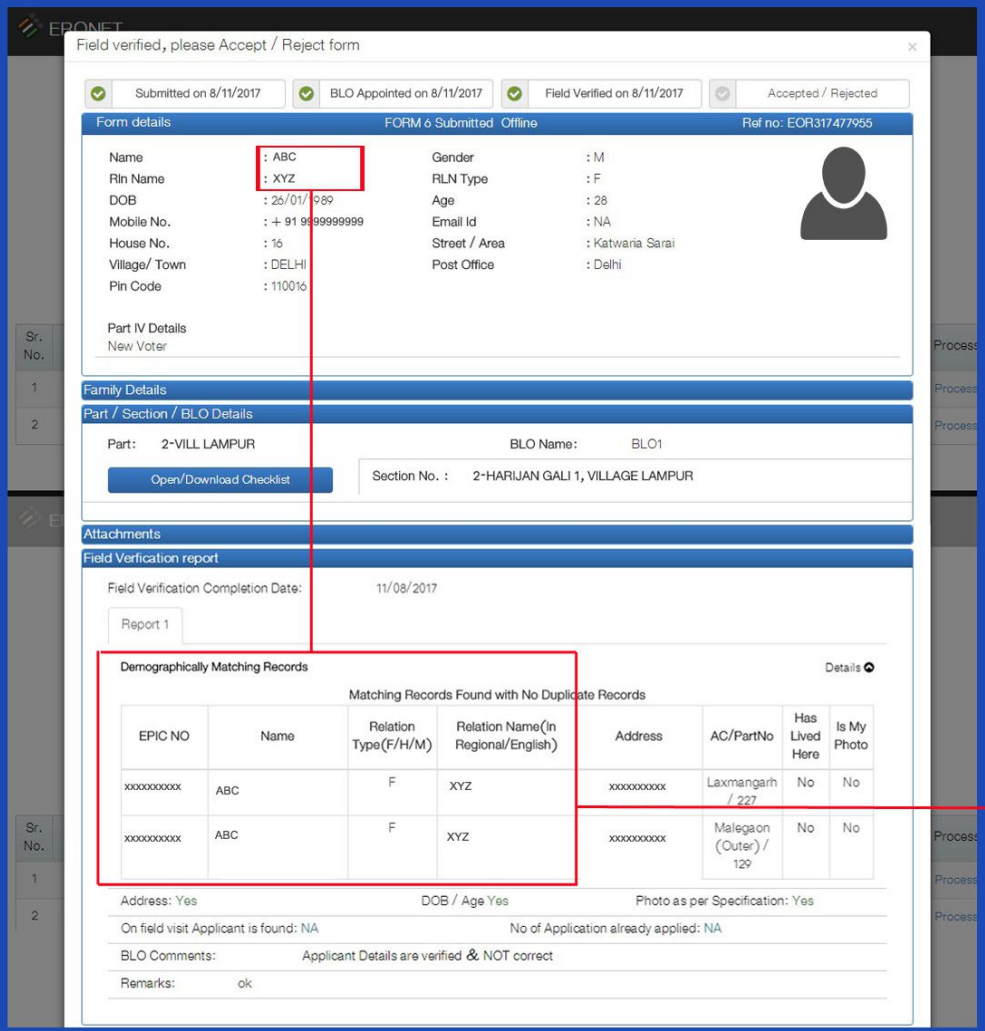


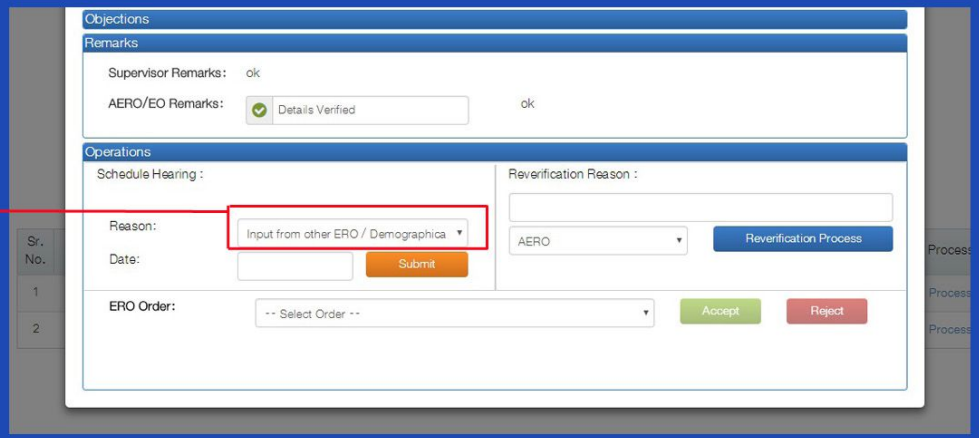
AERO Dashboard



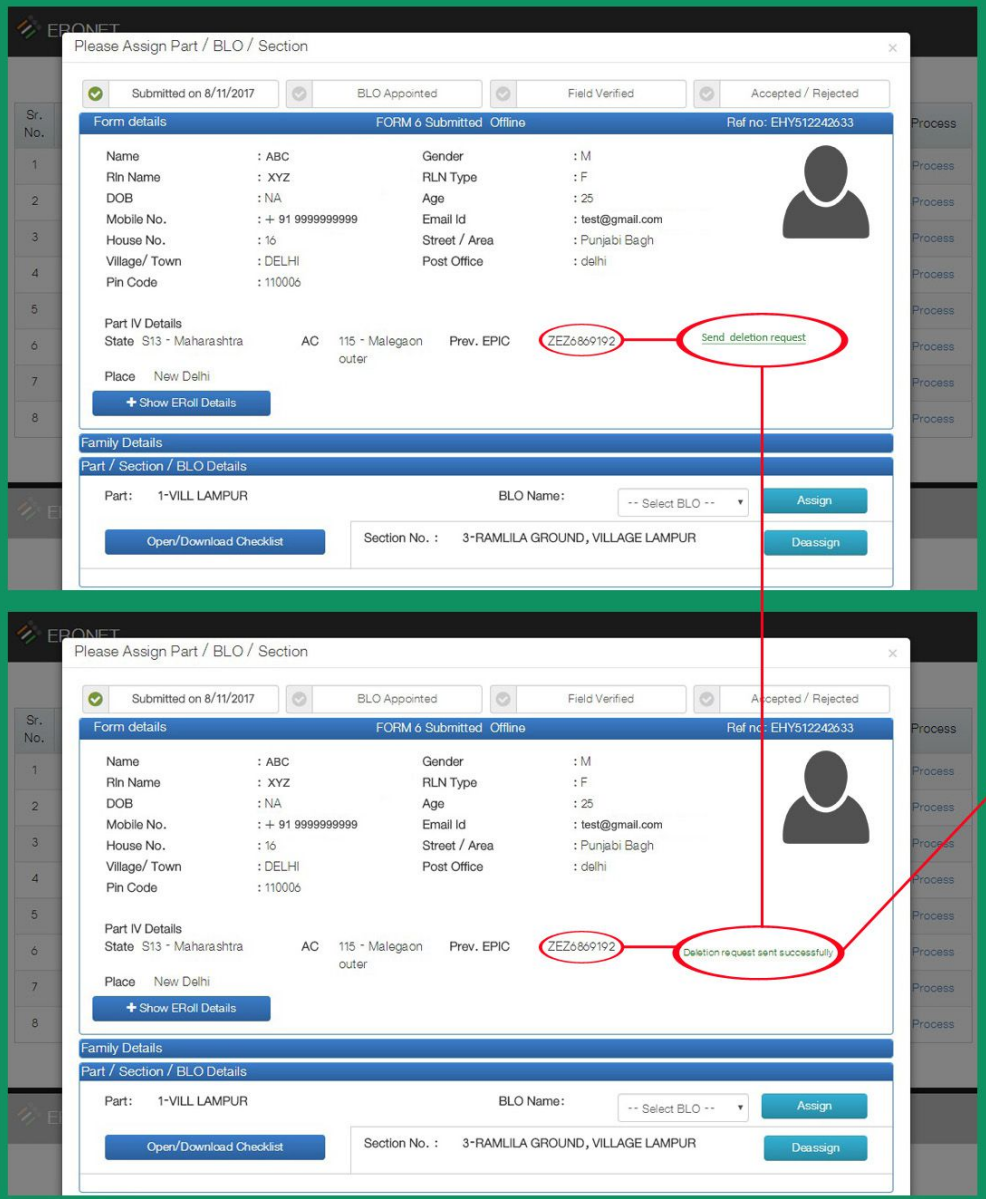
Data Entry Operator Dashboard

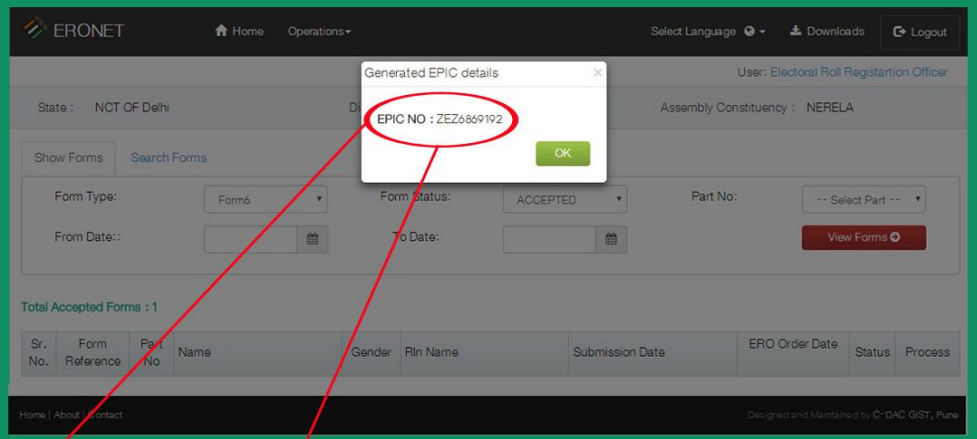
Easy Identification & removal of duplicate electors across the country

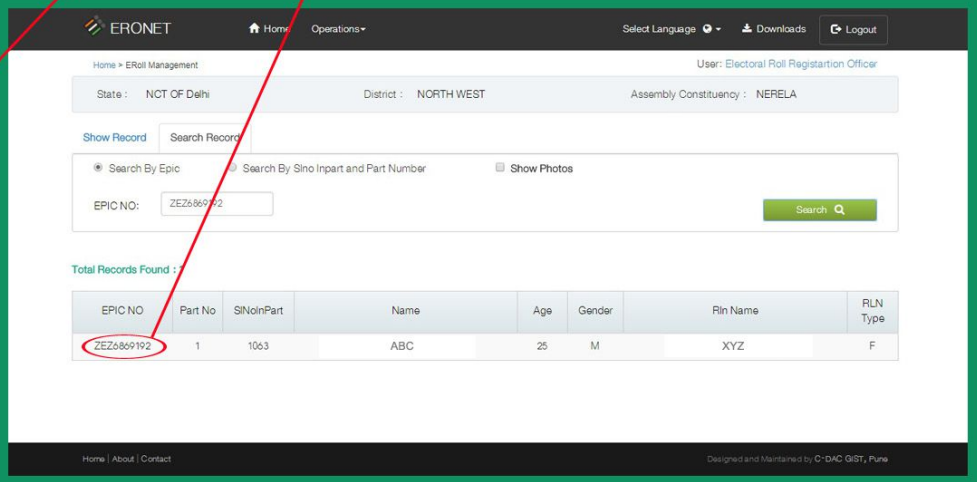




Electronic electoral migration process across Assembly constituencies in the Country







Family Information

Family Tree

EPIC generation and inclusion in E- Rolls

ERO-Net Facilitates easy migration from one constituency to another by facilitating seamless communication between the EROs of two constituency. De-duplication is also taken care of whileincluding entries in the E-Roll.

Your entry in E-Roll is linked to your family information. The polling booth is allocated keeping in view that the whole family can vote at the same location. ERO can view your family details before assigning parts and sections, thus deciding your polling booth.

EPIC Portability

Migration from one constituency to another while retaining the same EPIC number
