WHY THIS COURSE

The last 30 days decide Phase I

Phase I is not won by reading more. It is won by revising the right things, practising under exam conditions, and walking in with every merit section protected. This crash course is the final module of the C4S NABARD programme — the same method behind our 2025 toppers — compressed into a 30-day sprint.

?

Too much to revise, too little time?

We have already filtered Aug–Nov current affairs, schemes, reports, ARD and ESI down to exam-relevant gists. You revise; you don't research.

?

Scared of a sectional cut-off?

The QRE Cut-Off Booster and Decision Making module are built for one goal: clear the qualifying sections safely.

?

Not sure if you're exam-ready?

5 full-length 200-mark mocks with separate merit and qualifying score analysis tell you exactly where you stand.

AT A GLANCE

What is packed into 30 days

10 Focused Modules	20+ Sectional & Module Tests	5 Full-Length Mocks	1,300+ MCQs & Practice Qs	30 Days, Day-wise Plan
------------------------------	--	-------------------------------	-------------------------------------	----------------------------------

WHO IT IS FOR

Built for Specialist & Generalist aspirants alike

- ✓ **Specialist candidates** who need a compact, no-fluff route through GA, ESI, ARD and the qualifying sections alongside their discipline preparation.
- ✓ **Generalist (RDBS) and other streams** who want a structured final revision and serious mock practice.
- ✓ **Working professionals** who can give a focused 4–5 hours a day and need someone else to do the planning.
- ✓ **Repeaters** who missed the cut-off last time and want to fix exactly what went wrong.

Our promise: 30 days are enough to crack Phase I — if you follow the plan religiously. Every class, PDF and test is mapped to a specific day, so all you have to do is show up and do the day's work.

QUICK ANSWERS

Frequently asked questions

Q. Is 30 days really enough for Phase I?

Yes — if you follow the plan religiously. The content is already filtered to what the exam asks, so your time goes into revision and practice, not searching for material.

Q. I am a Specialist candidate. Is this for me?

Absolutely. It covers the Phase I paper end to end — GA, ESI, ARD, Decision Making, Computer and QRE — so you can keep your discipline preparation running alongside.

Q. The notification isn't out yet. Should I wait?

No. In the last cycle, Phase I came about six weeks after the notification. Students who start now walk in fully revised; students who wait end up rushing.

Q. I have studied before. Will this repeat what I know?

It is a final module: gists, fact kits and mocks that convert what you already know into marks, and expose what you don't.
