NABARD PREVIOUS YEAR QUESTION PAPERS (NABARD PYQ) · C4S COURSES

NABARD Grade A – Last 3 Years Computer Knowledge Questions (2021–2024) Memory-Based Analysis

12 May 2025 · 2 items

Are you preparing for the **NABARD Grade A Exam** and struggling with the **Computer Knowledge** section? You're not alone! Although this section is **qualifying in nature**, it often becomes a hurdle for many aspirants due to its technical nature and wide syllabus.

To help you tackle this section with confidence, we've compiled **memory-based questions** asked in the NABARD Grade A exams from **2021 to 2024**. This will help you identify commonly tested topics and prepare efficiently without wasting time on unnecessary information.

The Computer Knowledge section in the NABARD Grade A exam carries 20 marks and is qualifying in nature—but many aspirants struggle due to its technicality and breadth. This blog provides a comprehensive overview of memory-based questions asked from 2021 to 2024, highlighting commonly tested topics like MS Office, Operating Systems, Networking, Shortcut Keys, Cybersecurity, and Cloud Computing.

It includes year-wise trends, sample questions, and key focus areas to help candidates prepare smartly. With daily revision, conceptual clarity, and practice from trusted resources like C4S Courses, aspirants can confidently clear this section. Valuable resources like free playlists, mentorship programs, and Telegram support are also provided to enhance preparation.

Key Message: Don't ignore the qualifying Computer Knowledge section—prepare smartly and clear it with ease using memory-based insights and focused practice.

Why Computer Knowledge Matters in NABARD Grade A?

- The **Computer Knowledge section carries 20 marks** in Phase 1 (Prelims).
- It is **qualifying in nature**, but failing to clear it means disqualification, regardless of your score in other sections.
- Many students ignore it during preparation and struggle during the final exam.

Memory-Based Questions from 2021–2024

Below is an overview of the **frequently asked topics** and **sample memory-based questions** from the last 3 years of NABARD Grade A exams.

Year	Type of Questions	Key Topics Covered
2021	Objective (MCQs)	MS Office, Basics of Internet, Input/Output Devices, Shortcut Keys
2022	Objective (MCQs)	Operating System, File Extensions, Networking Basics, Full Forms
2023	Objective (MCQs)	Cloud Computing, Storage Devices, Email Protocols, Cyber Security

Sample Questions:

What does HTTP stand for?
Ans: HyperText Transfer Protocol

Shortcut for copying text in MS Word?
Ans: Ctrl + C

Which device is used to convert digital signals into analog signals?
Ans: Modem

What is the full form of CPU?
Ans: Central Processing Unit

What type of software is an Operating System?
Ans: System Software

Preparation Tips for Computer Knowledge

1. **Revise daily for 15–20 minutes** – consistency is key.
2. Use **flashcards or mind maps** to remember shortcuts and full forms.
3. Practice **mock tests and quizzes** to reinforce retention.
4. Focus more on **conceptual clarity** rather than rote learning.
